

## ACS DIVISION OF MEDICINAL CHEMISTRY

### 2012-2013 Predoctoral Fellowships

The ACS Division of Medicinal Chemistry announces the continuation of its Predoctoral Fellowship program. We anticipate that seven \$26,000 fellowships will be awarded in 2012. The awards are for predoctoral students in their third or fourth year of graduate study (second or third year of graduate study at the time of application) engaged in medicinal chemistry research in a Medicinal Chemistry, Pharmaceutical Chemistry, Biochemistry, or Chemistry department listed in the current ACS Directory of Graduate Research. Mentors for all applicants must be members in good standing of the Division of Medicinal Chemistry.

Nominations should be submitted by the applicant's Ph.D. advisor and should include a complete student curriculum vitae, including education and work experience; a student bibliography, including reprints of articles; a complete project description including rationale prepared by the candidate (five-page limit); transcripts of all post-high school work, including Graduate Record Examination scores (if available); three letters, including a nomination letter from the student's research advisor; and a letter from a university official with a commitment to cover tuition and all fees granted to other regular graduate students.

Applicants must be U.S. citizens or permanent resident visa holders at the time of application and must have at least one year of graduate school remaining at the time an award would begin (September 1, 2012). Additional information (including a complete set of guidelines) can be obtained from:

Jeff Zablocki, Ph.D.  
Gilead, Inc.  
3172 Porter Drive  
Palo Alto, CA 94304
