

**Division of Medicinal Chemistry
Celebrating 100 Years of Excellence
1909-2009**

**Journal of Medicinal Chemistry
Centennial Issue
Call for Papers**

The Division of Medicinal Chemistry of the American Chemical Society (MEDI) celebrates its Centennial Anniversary in 2009, marking 100 years of service in support of research and education in medicinal chemistry. To acknowledge this milestone, and to underscore the close association of the Division and the *Journal of Medicinal Chemistry*, the *Journal* will publish a special Centennial Issue in late 2009. This issue will be edited by Brian S. J. Blagg (winner of the 2009 David W. Robertson Award), John E. Macor (winner of the 2009 Robert M. Scarborough Award) and Bruce E. Maryanoff (2009 Bristol-Myers Squibb Edward E. Smisman Award winner and 2008 Division Hall of Fame inductee).

You are invited to submit a manuscript for inclusion in the MEDI Centennial issue of the *Journal of Medicinal Chemistry*. Authors should submit their manuscripts using the ACS Paragon Plus environment, and specify in the manuscript and accompanying cover letter that their papers are for the Centennial issue. All manuscripts should be submitted no later than May 31, 2009 for inclusion in the Centennial edition, which will be published in November or December of 2009. For more information, please contact one of the three guest editors listed below:

Brian S. J. Blagg
